Kidder's Patent Gas Regulator. Producing a uniform Light,

And effecting a Saving of 25 per cent. NO GAS CONSUMER WHO DESIRES consumption of gas.

It is in successful operation in the largest Hotels and Factories of the United States, and in thousands

and Factories of the United States, and in thousands of private residences, everywhere theroughly performing its work. It has been fully tested by the most eminent Gas Engineers of the Union, and the Company has yet to hear of the first instance in which it has failed to be approved.

ENGINEERS' TESTIMONY.

MARKATAN GAS WORKES, Oct. 23, 1852.

Dear Sir :—Enclosed I send you a certificate setting forth as briefly as I can the advantages of Dr. Kidder's admirable invention. I do not think it necessary to mention any experiments I may have made; Drs. Ellett, Terrey and Gibbs have a book full to be produced when wou desire it, the result of an experiment made at these Works, and which can be repeated whenever desired. With the street pressure of four and a half inches of water, and one burner near the governor, the pressure of the burner gauge was seven-tenths. The governor remaining burner near the governor, the pressure of the burner gauge was seven tenths. The governor remaining untouched, the number of lights was increased to fity-four extending over a surface of several hundred feet, and the street pressure was reduced to nches, and the pressure gauge at the governor. as before, seven-tenths.

Yours, de., CHAS. BOOME. MANHATTAN GAS WORKS, Oct. 23, 1852. The Gas Regulator of Dr. Kidder is, in my opin on, the most valuable instrument for regulating the low of gas to the burners that I have ever seen.— It is correct in principle, and will accomplish admir-ably the objects for which it was designed. It will insure great steadiness in the lights, and as the pressure at the metre is by this instrument, reduced siderably below that on the street mains, it wil enable the consumer to gain an equal amount of light at a smaller expenditure of gas; for the less the pressure under which the gas is consumed, the greater is the amount of light obtained.

light at a smaller expenditure of gas; for the less the pressure under which the gas is consumed, the greater is the amount of light obtained.

CHAS. ROOME, Engineer

Manhattan Gas Light Company.

Richmorp, August 13, 1853.

My engagements prevented me from experimenting with your Regulator before this week. I had it put up and so arranged that I could show the pressure of the works on the burners, which vary from 2 to 21 inches. I made some weights of lead and weighed it so I brought the pressure to 6-10, the pressure on the street mains 24 inches, and with or your 4 feet burners under the street pressure, the cocks turned off so that they would not perceptibly blow, I consumed 12 cubic feet in 25 minutes. I then put the Regulator on and opened the cocks full, same number of burners, burning the same time. I consumed 2 cubic feet, showing a saving of 25 per cent. The experiment to me was very astisfactory 1 the lights burned very steadily. I could not perceive any difference in the pressure or flame whicher one or six of the lights were burning. From what I have seen, I would have no heeltation in recommending its use.

Respectfully your. mending its use.

Respectfully yours,
C. CAMPBELL, Supt. of City Gas Works.

C. CAMPBELL, Supt. of City Gas Works.

HOTELS.

The value of the Machine to Hotels, may be learned from the following:
GASSN's HOTEL, WASHINGTON, D. C., Oct 31, 1553.

I have been using Kidder's Regulator in my Hotel for the last six weeks, and during that time I am condident I have saved in money 25 per cent, over the amount paid for the same time last year, and believe my light is quite as good as before using it, and do feel confident that it is a decided saving to the consumer of gas.

Aston House, Nov. 1, 1853.

We have had Dr. Waiter Kidder's time Regulator in the at the Astor House, for several months past. We have three Regulators operate finely; they perfectly regulate the burning of gas, and with as good a light, save use a handsome per ventage upon our bills of consumption, say about fifteen dollars a week, which is equal to twenty-five per cent, on our gas bills. We consequently feel very great confidence in the success of the degulator.

PERSONAL EXAMINATION.

Engineers and all others connected with Gas Com-panies are invited to visit the experimental Room of the Company, and fully satisfy themselves of the value of the Regulator. THE SAVING MADE.

THE SAVING MADE.

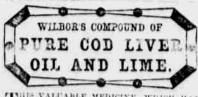

Varies with the pressure of the gas in the street mains. Two 17-five per cent, is acknowledged by neers of the Regulator, and places are dully reported to the Company, and the gas bills shown, where 30, 31 and even 40 per cent, has been exced. The Circular of the Company contains a list of references so widely known, and of such weight in the community, that no one who desires to use the Regulator.

HIS VALUABLE MEDICINE, WHICH HAS received the sanction of the nedical faculty, by
the it is regularly prescribed, and which has been
and accessfully by thousands of invalids, is one
of the most remorkable preparations ever offered to
me public, for the cure of

Consumption, Scrofuln. Coughs, C ocs. Asilma, Bronchitis, Spitting of Blood, and all Complaints of the Lungs.

the Lungs.

Para Cod Liver Gil has long been acknowledged to be the most efficacious article for the cure of Consequence and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In saces where alceration has track place on the lungs, this article has been found, by the most circular tests, to supply the very loggediants necessary for the formation of cells, and the complete healing of this delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lines robs the oil of its very nauseating taste, which residers it so repulsive, particularly to invalids. The torough incorporation of the Parsphate of Lines with the Oil has only been accomplished by the aloption of the most perfect rules of chemistry, and a moticine has thereby been produced which is of inettimable value in a climate like our cam.

A long array of certificates might be given here to prove the effections character of this medicine, but it is not deemed necessary. The fact that from the rery first introduction of the Cod Liver Oil and Lines before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its ucquantioned excellence.

ornamented Pilasters, &c. it will noterack in any beat of climate or of farmace, nor "warp" nor "give," in any way—it can be cut filed, sawed, planed, and turned by a lathe, it can be miled and screwed, and it a non-acomateler of heat.

THE BONTON PAPHER MACHE CO. take pleasure in saying to the people of the country, that they now have two large factories in the manufacture of Papier Mache fromments—and are prepared to execute orders to any design at short outges. Our work has been fully tested, and is now preferred both for its beauty, and during any dehanness, over all kinds of carried work, from which it is difficult for even the most particul eye to distinguish it. We are now prepared to speak of the uses of Papier Mache, not as a matter of considured required both for its desired, but for its distinguish it. We are now prepared to speak of the uses of Papier Mache, not as a matter of considured required both for its desired, but for guess-work, but as a reality.

We would refer particularly to the new and branding clump required both for its Gallery—large Arches, Crockets, Battlements, Columns, &c., for Screen—Patera s. Finnals, Norman Resea, Cap for pulpit, said in the organ gallery may be seen one of Messes Simmons & Co. I large organs, ornamented entire with Papier Mache. Also, to a large number of elegant private houses in this city and visinity. Four built and finished by Chilson Turner & Co. eight built by J. A. Turner & Co., Chief Justice Shari, buse—or Mount Verices street, and a large number of others furnished both inside and out, and to the ship e Cabines of Paniel Webster, Standardshire, Gern of the thean, Herald of the Mouning, Besten Laght. the thean, Herald of the Morning, Bester Light,

and Composition Ornamental work. Orders prompt. ly attended to. Address BOSTON PAPIER MACHE CO.

see dellar, and the whole mumber of Reseipts will be forwarded by mail. No letter taken from the office unless prepoid.

Dec. 16, 1555.
